Field of Specialization: Construction Engineering and Project Management

Job Description: The University of Texas at Austin Department of Civil, Architectural and Environmental Engineering (CAEE) invites applications for a tenure-track assistant professor position in construction engineering and project management with a focus on sustainable construction materials and/or practices. The department seeks a person with expertise related to (1) sustainable policies or practices as related to capital projects and/or (2) sustainable materials as related to capital projects. Areas of specific interest include, but are not limited to, sustainability performance metrics and their integration into the construction of capital projects, economic and life cycle analysis of sustainable construction projects, and sustainable construction material analyses or field methods.

The successful candidate will be expected to teach undergraduate and graduate courses, develop a sponsored research program, supervise graduate students, collaborate with other faculty, and be involved in service to the university and the profession.

Applicant Instructions:

Applicants must have an earned Ph. D. degree in civil or architectural engineering, or equivalent. Interested and qualified individuals should submit materials in electronic form to http://recruiting.caee.utexas.edu. Requested materials include a letter of interest; a complete CV, including academic and professional experience and a list of publications; statement of research interests outlining areas of technical expertise and interest that complement the department’s strategic plan and vision (available at http://www.caee.utexas.edu/); statement of teaching philosophy; and the names and e-mail addresses of three references. The letter of interest should be addressed to: Chair, Department of Civil, Architectural, and Environmental Engineering.

The University of Texas is an Affirmative Action/Equal Opportunity Employer. Applications from women and minorities are encouraged. A security sensitive background check will be conducted on the applicant selected. Review of applications will begin on 1 December 2014.
