Civil Engineering faculty hiring Advertisement

The department of Civil Engineering at the California State University, Los Angeles, invites applications for two full-time tenure-track Assistant Professor positions in Civil Engineering. The two positions are in the following specializations or any combination thereof: i) Environmental Engineering ii) Geotechnical Engineering iii) Highway Engineering. The expected start date is at the beginning of Fall Quarter 2015. Applicants must have an earned doctorate degree in Civil Engineering or closely related field by the start of their appointment. Also required are a strong commitment to excellence in teaching at both the undergraduate and graduate level (including laboratory instruction and supervision of projects), a commitment to graduate courses and research (including laboratory instruction and supervision of projects). Applicants should have the ability to relate well with others within the academic environment, and demonstrate ability and/or interest in working in a multicultural, multi-ethnic campus. Faculty candidates must be capable of developing a sponsored research program in their field or discipline that integrates research into teaching and learning, and take advantage of the College’s strong, well established ties to local industry. Faculty must also be willing to engage in STEM related activity with local community colleges and K-12 institutions.

Teaching experience, registration as a professional civil engineer, professional civil engineering work experience and interest in outcome based program assessment are preferred qualifications.
