TWO FACULTY POSITIONS IN WATER RESOURCES AREA

The Department of Civil Engineering at the University of Memphis is searching to fill two tenure-track faculty positions in the Water Resources area at the Assistant and/or Associate Professor level. While candidates in all areas related to Civil Engineering will be considered, the department is especially interested in candidates who can demonstrate potential for or have already established an exceptional academic and research track record in Water Resources Engineering or a closely related field. Applicants with backgrounds in surface water or groundwater are encouraged to apply.

The anticipated start date is August 2015. Applicants must have a doctorate from an accredited institution in Civil or Environmental Engineering with emphasis on Water Resources Engineering or a closely related field at the time of appointment. Applicants must demonstrate an ability to establish a creative, independent, high-impact, externally funded research program that would lead to strong national and international recognition. Position responsibilities also include enhancement of current research and academic programs through increased recruitment of graduate students and outreach activities. Applicants are expected to effectively teach multiple subjects in water resources engineering at both the graduate and undergraduate level and have excellent communication skills. Registration as a professional engineer or being on-track to be registered within the next 4 years is desired.

The University of Memphis provides competitive startup funds and teaching loads. A unique opportunity exists for researchers to work collaboratively with the well-renowned Ground Water Institute at the University of Memphis.

Applicants must submit their application through https://workforum.memphis.edu. Click on the full-time faculty menu to find the civil engineering posting. Applications must include a letter detailing personal qualifications and experience related to the position, a comprehensive curriculum vita, and the full names and contact information (mailing address, phone number, and email address) of five professional references. Screening of applications will begin February 2, 2015, and may continue until the position is filled. Please contact Dr. Shahram Pezeshk (spezeshk@memphis.edu) if you have any questions.

All qualified applicants are urged to apply for this position. Appointment will be based on qualifications as they relate to the position requirements without regard to race, color, national origin, religion, sex, age, disability, or veteran status, pending availability of funds.
