

FACULTY POSITION IN GEOTECHNICAL ENGINEERING. The Department of Civil and Environmental Engineering at Portland State University invites applications for a tenure-track faculty position in Geotechnical Engineering at the Assistant Professor level beginning September 2015. The position requires an earned doctorate in civil engineering, demonstrated ability and commitment to excellence in teaching, research and scholarship, and professional development and service. The successful candidate will teach at the undergraduate and graduate level, develop graduate courses, develop and sustain a sponsored research program, and engage in professional service activities. We seek applicants with a geotechnical background aligned at an interface with other disciplines: such as environmental, geologic, earthquake, or transportation engineering. The selected applicant should demonstrate an original and creative vision for research that is well-conceived and is aligned with regional and national priorities and policies.
