Faculty Position
Geotechnical Engineering

The Department of Civil and Environmental Engineering (CEE) at Tennessee Technological University (TTU) invites applications for a tenure-track faculty position at the rank of Assistant Professor in the area of Geotechnical Engineering to begin August 2015.

The successful candidate will be expected to have teaching and interdisciplinary research interests aligned with the TTU College of Engineering Strategic Research Focus Area in Resilient Infrastructure: http://www.tntech.edu/engineering/researchfocusareas/.

Requires a B.S. in Engineering, a PhD in Civil Engineering or closely related field with emphasis in geotechnical engineering, potential for interdisciplinary research activities that might include collaborative research with established materials and structural engineering faculty, potential for excellence in teaching and scholarly activities, and excellent written and oral communication skills.

Preference will be given to those that have a B.S. in Civil Engineering, initiated the process of or have professional registration, a track record of excellence in teaching, grantsmanship, and research, and peer-reviewed scholarly publications.

Applicants must apply online at www.tntech.edu/jobs and will be required to electronically upload: (1) a cover letter, (2) curriculum vitae, (3) statement on research experience and interests (two-page maximum), (4) statement on teaching philosophy (two-page maximum), (5) contact information for three professional references, and (6) a copy of transcript for highest degree earned (official transcripts for all degrees conferred required upon hire) at time of application. Review of applications will begin immediately; open until filled. AA/EEO
