The Department of Civil and Architectural Engineering and Construction Management (CAECM) of the College of Engineering and Applied Science (CEAS) at the University of Cincinnati (UC) invites applications for full time tenure track faculty to support the curriculum and research efforts of the Civil Engineering Program. Applications in the area of geotechnical engineering are being considered at this time, and the position will remain open until filled. Applicants at all levels of professorship will be considered.

UC has a strong commitment to the principle of diversity and, in that spirit, seeks a broad spectrum of exceptional candidates including women, minorities, and people with disabilities. Individuals with disabilities desiring accommodations in the application process should contact Karla Phillips, Office of Equal Opportunity, phone (513) 556-1788, TTY (513) 556-3277. UC is the recipient of the National Science Foundation ADVANCE Institutional Transformation Award to increase the participation of women in academic science and engineering careers. UC is proud to announce a Dual Career Hiring Assistance Program. For confidential questions regarding this program, please contact Associate Provost Robin Martin, robin.martin@uc.edu.

Candidates must have a PhD in Civil Engineering, specializing in Geotechnical Engineering. The candidate must have an expert level of knowledge in classical geotechnical engineering, with strengths in basic soil mechanics and laboratory testing, and several of the following: shallow and deep foundation design, lateral earth pressures, earthwork operations, settlement analyses, global slope stability, rock mechanics, ground stabilization methods, geosynthetics, seepage analyses, earthen dam design, seismic evaluations, geophysical methods of evaluation, instrumentation, pavement design and other geotechnical interests. The candidate will be expected to develop a successful research program in the geotechnical discipline. Successful applicants will be expected to support and develop fundamental and innovative curriculum at the graduate and undergraduate levels, conduct funded research and engage in scholarly activities, both independently, collaboratively, and interdisciplinarily, and participate in service activities supporting the mission of CAECM, CEAS, and UC.

Appointees will be evaluated for reappointment, promotion, and tenure based on criteria established by CAECM and CEAS. Salary will be commensurate with qualifications and experience. Applicants must apply online at https://career8.successfactors.com/career?company=UCPROD searching for Requisition Id 1529 and are required to electronically submit a cover page, a curriculum vitae, names and contact information of at least three references, a statement of teaching philosophy, and a statement of research experience and interests.

CAECM supports programs in Civil Engineering (CE), Architectural Engineering (AE), and Construction Management (CM). The Civil Engineering program, established in 1872, offers BS, MS, MEng, and PhD degrees in Civil Engineering. CE degree tracks include construction engineering, geotechnical engineering, structural engineering, transportation engineering, and water resources engineering.

The University of Cincinnati is an affirmative action/equal opportunity employer M/F/Vets/Disabled. Women, People of Color, persons with a disability, and covered veterans and disabled veterans are encouraged to apply. We are committed to increasing the diversity of the University community. Candidates who can contribute to that goal are encouraged to apply and to identify their strengths or experiences in this area.
