Structural Engineering Faculty Position

The Department of Civil and Environmental Engineering (CEE) at the University of Washington (UW) is in an ambitious, multi-year period of growth and renewal. As part of this expansion, applications are being solicited for a full-time, tenure-track faculty position in Structural Engineering and Mechanics.

The successful candidate will be expected to engage in teaching, research and service. In teaching, he or she will contribute to the existing range of courses and will develop new courses that reflect his or her professional interests. In research, the candidate will develop new areas of strength for the department, and collaborate with colleagues within CEE and throughout the university. The search is open to candidates with expertise in all areas of structural engineering, including investigation of the behavior of structural components and systems using advanced experimental techniques.

Candidates at the rank of Assistant Professor are strongly encouraged, but those with an established reputation as a leader in their field will also be considered at the rank of Associate Professor. Applicants must have earned a PhD, or foreign equivalent, in civil engineering or related discipline by the date of appointment.

Applications should include (1) a cover letter, (2) a Curriculum Vitae, (3) a brief description of the candidate’s vision for conduct of and potential collaboration in research, (4) a brief description of the candidate’s vision for teaching, (5) a list of at least three references. Applicant review will begin November 1, 2014 and will continue until the position is filled.

Applications must be submitted at http://www.engr.washington.edu/facsearch/apply.phtml?pos_id=153. Questions regarding the application process may be directed to search@ce.washington.edu.

The University of Washington is building a culturally diverse faculty and strongly encourages applications from women, minorities, individuals with disabilities and covered veterans. The University of Washington is the recipient of a 2006 Alfred P. Sloan Award for Faculty Career Flexibility and a 2001 National Science Foundation ADVANCE Institutional Transformation Award to increase the advancement of women faculty in science, engineering, and math (see www.engr.washington.edu/advance). The University of Washington is an affirmative action and equal opportunity employer. All qualified applicants will receive consideration for employment without regard to, among other things, race, religion, color, national origin, sex, age, status as protected veterans, or status as qualified individuals with disabilities. All positions are contingent on the availability of funding.
