An intern (typical 10-12 week, full-time schedule assignment) position is a temporary assignment with 3M’s Corporate Student Programs. Corporate Student Programs is designed to provide 3M with the opportunity to identify qualified candidates for regular employment, and to provide students with the opportunity to integrate their academic knowledge with work experience. As a Student Programs participant located in Maplewood, MN you will develop skills, and gain work experience in your field of study.

The person hired for the position of Environmental Intern will have the opportunity to work with the Corporate Environmental team on projects related to environmental permits and regulations. The target start date for this position is May/June 2016. This person will develop skills and gain work experience in environmental engineering and science. Specific project assignments will be made after candidates have accepted positions.

Primary Responsibilities include, but are not limited to, the following:
- Assist in review of state and federal environmental reporting requirements
- Assist in evaluating environmental compliance requirements for 3M facilities
- Assist with environmental auditing
- Gather information about air, water and waste regulations for 3M facilities
- Develop training materials for specific regulations
- Deliver training on environmental topics
- Analyze environmental data and improve environmental compliance data systems
