University of Wisconsin - Madison

Position Vacancy Listing

PVL # 87444

Please Note: A change was made to this position announcement on 09/20/16

Working Title:
Professor, Construction Engineering and Management

Official Title:
PROFESSOR(C20NN) or ASSOCIATE PROFESSOR(C30NN) or ASSISTANT PROFESSOR(C40NN)

Degree and area of specialization:
PhD and background/expertise relevant to Civil and Environmental Engineering and/or Construction Engineering and Management

Minimum number of years and type of relevant work experience:
Expertise in civil engineering and/or construction engineering and management with ability to develop and maintain a strong research program and distinguished record for creative research and scholarship. Must be committed to both undergraduate and graduate instruction along with a vigorous research program.

Principal duties:
The Department of Civil & Environmental Engineering seeks a faculty member to augment and enhance departmental strengths in research and teaching in the Construction Engineering and Management area. Outstanding candidates with national and international recognition in these areas are encouraged to apply. This appointment is open at the Assistant, Associate, and Full Professor level. Professorship or Fellowship opportunities may be available to outstanding candidates. Must be willing to work with industry partners and industry consortium members of the department.

Candidates must be able to develop and maintain innovative research programs on technological problems that are relevant to the needs of the profession and society; participate in undergraduate and graduate instruction in the areas of technical competence; participate in faculty governance; participate in department, university, professional, and public service; participate with industry leader advisory board; and work with industry partners.

Specialty areas of primary research interest include (but are not limited to) construction engineering and construction management, virtual design, construction and building fabrication, lean construction and integrated project delivery, advanced technologies in construction, risk management and sustainable construction.

A criminal background check will be conducted prior to hiring.
