Technical Vacancy Announcement

Civil Engineer Trainee (4 positions)
Assistant Structural Design and Review Trainee

IPR Number: 43423  Union Position: ☒ Yes ☐ No
Position Number: PW110-23-75-904-10-01  Shift: 8:00 am – 4:30 pm
Opening Date: March 11, 2019  Monday – Friday
Closing Date: April 5, 2019  Salary: $4,275 – $5,118*

Office/Central Bureau/District/Work Address:
Office of Highways Project Implementation / Bureau of Bridges and Structures / 2300 S. Dirksen Parkway, Springfield, Illinois

Position Purpose:
This position assists in the structural analysis and detailed design required in the production of structural contract plans utilized in the construction of simple bridge and traffic structures and for the review of simple construction shoring, bracing, and temporary structure designs prepared by contractors. Work may also include preparation of bridge repair plans, load ratings, and bridge standards.

Qualifications:

Position Requirements:
• Bachelor of Science in Civil Engineering from an ABET accredited university prior to date of employment or must be a Licensed Engineer Intern in the state of Illinois (includes those expecting to graduate in spring 2019)
• Minimum 2.5 cumulative GPA in engineering related courses (If GPA is between a 2.0-2.5, candidate must have passed Fundamentals of Engineering Exam.)
• Occasional travel
• Valid driver's license

Position Desirables:
• Working knowledge of the routine practices of civil engineering
• Working knowledge of mathematics as applied to engineering activities
• Ability to make relatively difficult technical computations and estimates
• Strong oral and written communication skills

How to Apply/Remarks:
Technical Applications PM1080 (rev 6/1/17) must be received by the Bureau of Personnel Management, Room 113, 2300 South Dirksen Parkway, Springfield, IL 62764 (Fax# 217/557-3134) or emailed to DOT.CO.BPM.EmploymentApplications@Illinois.gov by 4:30 pm on the closing date listed above. Applications will not be accepted after this date and time. Applicants will be notified in writing to schedule interviews.

Agency Contact: Bureau of Personnel Management, 217/782-5594

To be considered for a permanent position within IDOT, you must either be a US citizen or a non-citizen with permanent work authorization.

Only education/coursework listed within the application will be considered for determining eligibility for this position.

NOTE: Unofficial college transcripts must be included with the application. Official college transcripts must be submitted upon date of employment. Applicants possessing an Engineer Intern license must also include a copy with application. Applicants not submitting these documents by the posting deadline will not be considered for employment. Please include IPR number on the application.

NOTE: Please be advised that if a high volume of applications is received, the applications may be screened to establish a smaller pool of applicants for interview. The screening will be based on the information contained in the application.

*Individual salary offers are computed based on an applicant’s current position and experience level in comparison to the posted title as well as internal equity of staff in the organizational unit.
Position Purpose

This position assists in the structural analysis and detailed design required in the production of structural contract plans utilized in the construction of simple bridge and traffic structures and for the review of simple construction shoring, bracing, and temporary structure designs prepared by contractors. Work may also include preparation of bridge repair plans, load ratings, and bridge standards.

Dimensions

Annual projects: 3
Contract value: $1,500,000

Nature and Scope

This position reports to the Structural Design and Review Group Engineer. There are no subordinates reporting to this position.

This position operates in an environment of performing the structural analysis and design for simple structures while exercising sound engineering judgment and displaying knowledge of structural engineering theory. The incumbent also reviews, analyzes, and recommends approval/disapproval of shoring, bracing, and temporary structure designs submitted by contractors.

Typical problems faced by the incumbent include the resolution of simple engineering problems and the utilization of learned structural theory to practical applications in structural design. The greatest challenge faced by the incumbent is utilizing technical knowledge to design and analyze simple types of structures which incorporate all departmental design policies, are cost effective, and are structurally sound.

The incumbent is personally responsible for determining the various types of loads which will be applied to structures including the dead loads, live loads, truck impacts, truck braking and centrifugal forces, wind loads, thermal forces, earth pressures, buoyancies, shrinking loads, ice pressures, and earthquake forces. The incumbent calculates internal forces including the moments, shears, and axial loads of each individual structural member. S/He determines the size of structural members, performs fatigue analysis, and calculates deflections. S/He prepares design details, unique design notes, geometry, and quantity calculations. S/He also directs and approves the preparation of final design plans. The incumbent assists in field investigations to evaluate structural problems and reviews designs prepared by others to ensure completeness and structural adequacy.

The incumbent must refer to the supervisor for guidance in design methods, accepted design details, policies, specifications, and procedures. The incumbent is guided by American Association of State Highway Officials (AASHTO) specifications and current interim specifications and applicable departmental policies.

The incumbent has contact with all sections within the bureau. Occasional travel is required.
Assistant Structural Design and Review Trainee
PW110-23-75-904-10-01

The effectiveness of this position can be measured by the structural and analytical expertise displayed in the analysis and design of projects, the incumbent’s ability to solve structural engineering problems in the office and in the field, and by the timely completion of assigned projects.

**Principal Accountabilities**

1. Develops and analyzes simple structure designs which incorporate current methods and technology.

2. Performs design computations required in the preparation and review of structural contract plans.

3. Reviews structure designs prepared by others for completeness and structural adequacy.

4. Reviews and recommends approval/disapproval of contractor proposals for shoring, bracing, and temporary structures.

5. Assists in performing field investigations.

6. Performs duties in compliance with departmental safety rules. Performs all duties in a manner conducive to the fair and equitable treatment of all employees.

7. Performs other duties as assigned.

**Supervisor of this position**

Immediate Supervisor Position Classification: Civil Engineer V
Working Title: Structural Design and Review Group Engineer
Position Number: PW115-23-75-904-10-01

**Position Requirements**

- Bachelor of Science in Civil Engineering from an Accreditation Board of Engineering and Technology, Inc. (ABET) accredited university prior to date of employment or must be a Licensed Engineer Intern in the state of Illinois
- Minimum 2.5 cumulative GPA in engineering related courses (if GPA is between a 2.0-2.5, candidate must have passed Fundamentals of Engineering Exam)
- Occasional travel is required
- Valid driver’s license
Position Desirables

- Working knowledge of the routine practices of civil engineering
- Working knowledge of mathematics as applied to engineering activities
- Ability to make relatively difficult technical computations and estimates
- Strong oral and written communication skills
