

Tenure Track Position

Architectural Engineering Department

The Department of Architectural Engineering at Cal Poly, San Luis Obispo, California is seeking applications for a full-time, academic year tenure track assistant professor position for the teaching of the analysis, design, and construction of building structures. Starting date is September 7, 2017. Salary is commensurate with qualifications and experience. Candidates should also have a strong interest in the inter-relationship between structural engineering and architecture and construction, both in the academic context and in practice.

Required qualifications for the position are either: a doctorate in structural engineering or a closely related field, along with evidence of scholarship related to building structures; or a master's degree in structural engineering, a structural engineering license (or equivalent with the ability to obtain a California S.E. license within 3 years) and significant experience in professional practice (a preferred minimum of 10 years of full-time practice). In addition to teaching and service, the successful candidate is expected to be an active scholar who makes contributions to the field of architectural engineering.

To apply, please visit WWW.CALPOLYJOBS.ORG, complete a required online faculty application and apply to requisition #104225. Please attach a resume/CV, and cover letter that includes a statement about teaching and scholarly interests. Please provide 3 professional references with names and email addresses when completing the application. Official University transcripts will be required of finalists. REVIEW BEGIN DATE: January 9, 2017. For questions, please contact Erika Clements at the Architectural Engineering Department: (805) 756-6497 or arce@calpoly.edu.

The Architectural Engineering Department is one of 5 departments in the College of Architecture and Environmental Design, and offers an ABET-accredited, 4-year Bachelor of Science degree program and a Master of Science degree program. The department maintains close ties with industry and prides itself on the balance of practice and theory in the curriculum. The program has a longstanding tradition of interdisciplinary collaboration with programs in Architecture and Construction Management. The department currently has approximately 12 full time faculty and over 350 students.

At California Polytechnic State University, San Luis Obispo, we believe that cultivating an environment that embraces and promotes diversity is fundamental to the success of our students, our employees and our community. Bringing people together from different backgrounds, experiences and value systems fosters the innovative and creative thinking that exemplifies Cal Poly's values of free inquiry, cultural and intellectual diversity, mutual respect, civic engagement, and social and environmental responsibility. Cal Poly's commitment to diversity informs our efforts in recruitment, hiring and retention. California Polytechnic State University is an affirmative action/equal opportunity employer. EEO.
