

UNIVERSITY OF HARTFORD

COLLEGE OF ENGINEERING, TECHNOLOGY, AND ARCHITECTURE

The Department of Civil, Environmental & Biomedical Engineering at the University of Hartford invites applications for a tenure-track position at the rank of Assistant Professor in Civil Engineering to start beginning Spring 2019. Candidates must hold an earned bachelor and doctorate in Civil Engineering with emphasis on structural engineering. ABDs will be considered provided the candidate can document a firm degree completion date. The search is open to candidates with expertise in all areas of structural engineering, including sustainable structures and materials.

The position requires a strong commitment to excellence in teaching, scholarship and service. The successful candidate will be expected to: (1) teach undergraduate and graduate courses in structural analysis and design as well as courses in fundamental mechanics to engineering and architecture students, (2) disseminate the results of their research, (3) contribute to the diversity and excellence of the academic community through their research, teaching and service, and (4) be committed to working with diverse student and community populations. There will be opportunities to teach in our innovative, interdisciplinary University Interdisciplinary Studies. Candidates should show a willingness and ability to employ technology in teaching. Effective written and oral communication in English is required. Professional registration is strongly encouraged.

The College of Engineering, Technology, and Architecture offers ABET-accredited programs in Civil, Biomedical, Mechanical, Acoustical Engineering Electrical Engineering, Computer Engineering. In addition, it offers programs in audio engineering technology, architectural engineering technology, computer engineering technology, chemical engineering technology and Master of Architecture.

The University of Hartford is an open and welcoming community, which values diversity in all its forms. In addition, the University aspires to have its faculty and staff reflect the rich diversity of its student body and the Hartford region. Candidates committed to working with diverse populations, to encouraging under-represented minorities in STEM disciplines, and conversant in multicultural issues are strongly encouraged to apply. The University of Hartford provides special research and community opportunities pertaining to diverse populations, and as such the civil engineering program has an excellent record of working with diverse communities in the greater Hartford area.

Students at the University of Hartford find success in a learning environment that both challenges and mentors them. Our academic mission is to engage students in acquiring the knowledge, skills, and values necessary to thrive in, and contribute to, a pluralistic, complex world. Information on the university strategic plan and the full text of our academic mission can be seen at www.hartford.edu.

UNIVERSITY OF HARTFORD

COLLEGE OF ENGINEERING, TECHNOLOGY, AND ARCHITECTURE
