

CURRICULUM VITAE OF GIANLUCA CUSATIS

:: BIOSKETCH ::

I am a faculty member of the Civil and Environmental Engineering Department at Northwestern University that I joined in August 2011. Prior to joining Northwestern, I worked at Rensselaer Polytechnic Institute for 6 years. I obtained my “Laurea”¹ degree and my PhD in structural engineering from Politecnico Di Milano (Italy). I teach courses of the civil engineering curriculum and perform research in the field of experimental, computational and applied mechanics, with emphasis on heterogeneous and quasi-brittle infrastructure materials. My work on constitutive modeling of concrete through the adoption of the so-called Lattice Discrete Particle Model (LDPM), one of the most accurate and reliable approaches to simulate failure of materials experiencing strain-softening, is known worldwide. In addition, recent work on waterless concrete for Martian constructions has received widespread attention in the technical community and in the media. Under the sponsorship of several agencies my current research focuses on formulating and validating multiscale and multiphysics computational frameworks for the simulation of large scale problems dealing with a variety of different applications including, but not limited to, infrastructure aging and deterioration, structural resiliency, and response of materials and structures to natural and man-made hazards. I am member of ASCE and ACI and active in several technical committees. I serve as the chair of the ACI 209 committee on creep and shrinkage and I served as chair of ACI 446 on fracture mechanics. In these two committees I have been leading an effort to develop practical guidelines for the calibration and validation of concrete models. Furthermore, I serve as treasurer for IA-FraMCoS, president for IA-ConCreep, and I am a member of the EMI Board of Governors. Finally, I was recently awarded the prestigious EMI Fellow membership grade.

:: EDUCATIONAL PREPARATION ::

- Politecnico di Milano – Milan, Italy** *March 2002*
Ph.D. degree in Structural Engineering
· Thesis on mesoscale modeling of concrete
- Politecnico di Milano – Milan, Italy** *July 1998*
“Laurea” degree in Structural Engineering
· Thesis on creep and shrinkage of concrete

:: PROFESSIONAL EXPERIENCE ::

- Northwestern University – Evanston, IL** *2019 – Present*
Professor
· Leading research activities on the behavior of concrete, wood, and rocks.
· Teaching courses of the civil engineering curriculum
· Coordinating the Mechanics, Materials, and Structures (MMS) program
- Northwestern University – Evanston, IL** *2011 – 2019*
Associate Professor
· Co-director of the Center for the Sustainable Engineering of Geological and Infrastructure Materials (SEGIM)
· Leading research activities on the behavior of quasi-brittle infrastructure materials
· Teaching courses of the civil engineering curriculum
· Coordinating the Mechanics, Materials, and Structures (MMS) program
- Tokyo Institute of Technology – Tokyo, Japan** *June 2018 – July 2018*
Professor
· Teaching a course on computational modeling of concrete structures
- Rensselaer Polytechnic Institute – Troy, NY** *August 2005 – July 2011*
Assistant Professor
· Leading research activities on the dynamic behavior of concrete
· Teaching courses of the civil engineering curriculum

¹ In the old Italian high educational system the “Laurea” degree was a five year degree equivalent to BS+MS degree

Northwestern University – Evanston, IL

June 2004 - July 2005

Research Associate

- Conducting research on the mesoscale modeling of concrete

Politecnico di Milano – Milan, Italy

April 2002 - May 2004

Research Associate

- Conducting research on the mesoscale modeling of concrete and steel anchors

Milan, Italy

January 1999 - October 2006

Professional Engineer – Member of the Professional Engineers Association of Milan

- Design of reinforced concrete and prestressed concrete structures

:: HONORS AND LEADERSHIP POSITIONS IN PROFESSIONAL SOCIETIES ::

- | | |
|--|----------------|
| · ASCE, Engineering Mechanics Institute (EMI), Fellow. | 2018 |
| · ASCE, Engineering Mechanics Institute (EMI), Board Of Governors, Member. | 2017 – Present |
| · IA-ConCreep, President. | 2015 – Present |
| · IA-FraMCoS, Treasurer. | 2013 – Present |
| · ACI 209, Creep and Shrinkage in Concrete, Chair. | 2016 – Present |
| · ACI 446, Fracture Mechanics, Chair. | 2010 – 2016 |
| · Chi Epsilon Honor Society, Member | 2009 |
| · Industry Stipend of Excellence Award, ConCreep-6 Conference | 2001 |

7. Structural Design 3 Spring 2020
6. Structural Design 2 Winter 2020
5. Structural Design 1 Fall 2019
4. Inelastic Analysis of Structures – Fall 2017, Fall 2018, Spring 2019.
3. Theory of Elasticity – Winter 2013-Winter 2017, annually.
2. Theory of Plates and Shells – Spring 2012, Winter 2013-Winter 2019, annually, Fall 2019.
1. Design of Prestressed Concrete – Spring 2012-Spring 2019, annually.

Graduate Courses @ Tokyo Institute of Technology

1. Computational Modeling of Concrete Structures - The Lattice Discrete Particle Model (LDPM) – Summer 2018.

Graduate Courses @ Rensselaer Polytechnic Institute

1. Advanced Concrete Mechanics – Fall 2008, 2010.

Undergraduate Courses @ Rensselaer Polytechnic Institute

4. Strength of Materials – Fall 2010.
3. Concrete Design – Spring 2007, Spring 2009-2011, annually.
2. Advanced Structural Analysis – Spring 2006, 2008, 2010.
1. Introduction to Structural Engineering in Fall 2005-2009, annually.

Short Courses

7. “Multi-Scale and Multi-Phase Modeling of Aging Concrete Structures”, BOKU University, Vienna (Austria), July 2014 and June 2015.
6. “Microplane Models: Theory, Numerical Implementation, and Applications”, Monash University, Melbourne (Australia), May 2014.
5. “MARS: Multiscale Modeling of Concrete”, ES3 Headquarters, San Diego (CA), USA, April 2014.
4. “MARS: Modeling and Analysis of the Response of Structures”. Rensselaer Polytechnic Institute, Troy (NY), USA, September 2010.
3. “Cracking of Prestressed Concrete Bridges”. NYSDOT. Bridge Inspection Training Course. Birch Hill, Schodack, NY, March 2010.
2. “Design of Prestressed Concrete Bridges”. NYSDOT Training Course. Rensselaer Polytechnic Institute, Troy (NY), USA, May 2007.
1. “Modeling and Analysis of the Response of Structures (MARS) Workshop: the Lattice Discrete Particle Model (LDPM)”. U.S. Army Engineer Research & Development Center, Vicksburg (MS), USA, April 2007.

:: SUPERVISING ::

Post-Docs @ Northwestern University

6. Roozbeh Reza khani September 2016 – 2017.
5. Marco Salviato, January 2014 – July 2015.
4. Erol Lale, September 2013 – August 2015.
3. Congrui Jin, October 2013 – August 2015.
2. Roman Wendner, July 2012 – August 2013.
1. Xinwei Zhou, May 2012 – February 2013.

PhD Students @ Northwestern University

13. Susan-Alexis Brown, “TBD”, in progress.
12. Hao Yin, “TBD”, in progress.
11. Matthew Troemner, “3D Printing of Infrastructure Materials”, in progress.
10. Elham Ramyar, “Numerical Simulation of Concrete at Fresh State”, in progress.
9. Chenyang Li, “Micromechanical Multiphysics Simulation of Cementitious Composites and Geomaterials”, in progress.
8. Madura Pathirage, “Experimental and Numerical Modeling of Concrete Deterioration and Aging”, in progress.
7. Faysal Bousikhane, “Experimental Investigation and Multi-Physics Computational Modeling for Assessment, Mitigation, and Prevention of Concrete Deterioration”, June 2018.
6. Weixin Li, “Computational and Experimental Characterization of the Behaviors of Anisotropic Quasi-Brittle Materials: Shale and Textile Composites”, February 2018.
5. Lin Wan, “Material Characterization and Aging of Ultra-High Performance Concrete” December 2015.

4. Shiva Esna Ashari Esfahani, “Multiscale Modeling of Earth-like Materials”, July 2016.
3. Jovanca Smith, “Characterization of Ultra-High Performance Concrete for Impact Resistant Structures”, May 2014.
2. Roozbeh Rezhakani, “Mathematical Homogenization of Discrete Models for the Simulation of Quasi-Brittle Behavior”, September 2016.
1. Mohammed Al-Naggar, “Multiscale Modeling of Concrete for Failure Analysis and Aging of Concrete Structures”, May 2014.

MS Students @ Northwestern University

13. Xin Zhang, “Numerical Simulation of 3D Woven Composites” , Winter 2019.
12. Tianjiao Gai, “Experimental and Computational Analysis of Reinforced Concrete Deterioration Due to Alkali Silica Reaction (ASR)”, Fall 2018.
11. Boqin Zhang, “Numerical Simulations of Alkali Silica Reaction (ASR) Deterioration Under Triaxial Stress States”, Fall 2018.
10. Zixian Yang, “Experimental and computational modeling of drying behavior for standard and self healing concrete”, December 2017
9. Zhefei Jin, “Experimental Study of Marcellus Shale”, September 2016.
8. Minhyeok Ko “Shrinkage and Creep Effect on Large Structures”, May 2016.
7. Oluwatobi Fiyin, “Shrinkage and Creep Effect on Tall Building”, May 2015.
6. Mengxi Du, “Experimental Investigation of Fiber Reinforced Ultra High Performance Concrete”, May 2015.
5. Madura Pathirage, “Alkali Silica Deterioration of Concrete”, August 2015.
4. Faysal Bousikhane, “Experimental investigation of a fungi-activated self-healing concrete”, July 2014.
3. Jiannan Wang, “Computational Analysis of Concrete-Fiber Interaction”, March 2014.
2. Yikai Wang, “Strength and Toughness Build-Up of Ultra-High Performance Concrete”, December 2013.
1. Laure Bonfils, “Dynamic Behavior of Ultra-High Performance Concrete (UHPC) Structures Under Extreme Loading Conditions”, May 2013.

Graduate Independent Studies and Summer Projects @ Northwestern University

17. Mingwei Cai, “NASA Challenge Project”, Fall 2018.
16. Chenyang Li, “NASA Challenge Project”, Fall 2018.
15. Raul Merrero, “NASA Challenge Project”, Fall 2018.
14. Kavya Mendu, “NASA Challenge Project”, Fall 2018.
13. Elham Ramyar, “NASA Challenge Project”, Fall 2018.
12. Matthew Troemner, “NASA Challenge Project”, Fall 2018.
11. Yu Wang, “NASA Challenge Project”, Fall 2018.
10. Zge Wang, “NASA Challenge Project”, Fall 2018.
9. Xiaotian Liang , “Experimental characterization of COR-TUF”, Winter 2015.
8. Yao Qiao, “Experimental characterization of COR-TUF”, Winter 2015.
7. Hanxiao Sun, “Experimental characterization of COR-TUF”, Winter 2015.
6. Tianzheng Wang, “Experimental characterization of COR-TUF”, Winter 2015.
5. Liang Liu, “Experimental characterization of FRC”, Fall 2014.
4. Tianzheng Wang, “Experimental characterization of FRC”, Fall 2014.

3. Xin Ye, “Experimental characterization of UHPC”, Fall 2012.
2. Edgardo Santana, “Bridge design”, Fall 2012.
1. Aditya Venkatesan, “Characterization of Cor-Tuf Concrete”. Summer 2012.

Undergraduate Projects @ Northwestern University

10. Moses Lee, “NASA Challenge Project”, intern, Winter 2019.
9. Lawan Alade-Fa, “NASA Challenge Project”, intern, Winter 2019.
8. Saima Kjimani, “NASA Challenge Project”, CEE SIP, Summer 2018.
7. Melanie Galatino, “NASA Challenge Project”, CEE SIP, Summer 2018.
6. Jonathan Meehan, “NASA Challenge Project”, intern, Summer 2018.
5. Roberto Roches, “NASA Challenge Project”, intern, Summer 2018.
4. Gina Baldea, “Experimental investigation of alkali-silica reaction in concrete”, work-study, Summer 2015.
3. Benjamin Barteau, “Waterless martian concrete”, work-study, Summer 2015.
2. Timothy Clark, “Waterless martian concrete”, work-study, Spring 2013, Fall 2013, Spring 2014.
1. Joseph Bell, “Characterization of Cor-Tuf Concrete”, SROP, Summer 2012.

K-12 Outreach @ Northwestern University

5. Hosted high-school students for a Lab demonstration, Winter 2019
4. Aditya Ramachandran, “NASA Challenge Project”, intern, Summer 2018.
3. Remote presentation (via Skype) of our work on Marscrete to high-school students, Summer 2018.
2. Michael Cunningham, “Characterization of Cor-Tuf Concrete”, intern, Fall 2012.
1. Hosted a middle-school students for the Honors Course concrete testing of the Center for Talent Development, Summer 2012.

Post-Docs @ Rensselaer Polytechnic Institute

2. Andrea Mencarelli, November 2010 – December 2010.
1. Edward Schauffert, September 2010 – August 2011.

PhD Students @ Rensselaer Polytechnic Institute

3. Xinwei Zhou, “Continuous/Discrete Computational Modeling for the Multiscale Simulation of Concrete Mechanical Behavior”, May 2012.
2. Andrea Mencarelli, “Numerical Simulation of the Effect of Blast and Penetration on Reinforced Concrete Structures”, November 2010.
1. Edward A. Schauffert, “Discrete Modeling of Quasi-Brittle Materials: Fracture, Fragmentation and Size-Effect”, August 2010.

MS Students @ Rensselaer Polytechnic Institute

7. Eric Domonell, “Lattice Discrete Particle Modeling of Reinforced Concrete”, December 2011.
6. Jovanca Smith, “Discrete Modeling of Ultra High-Strength, Fiber Reinforced Concrete”, August 2011.
5. Eric Dhal, “Experimental Investigation of the Mechanical Behavior of Concrete under Uniaxial and Multiaxial Stress States”, November 2009.
4. Daniel Horvath, “Microplane Modeling of Concrete and Other Quasi-Brittle Materials”, November 2009.

3. Andrea Mencarelli “Discrete Particle Model (LDPM) for Concrete: Calibration and Validation under Quasi-Static Loading Condition”, December 2007.
2. Edward Schaufert, “Size Effect and Cohesive Crack Propagation in Quasi-Brittle Materials”, August 2007.
1. Miao Zhou “Spectral Particle Method (SPM) for Two-dimensional Cohesive Crack Propagation”, August 2007.

Undergraduate Projects @ Rensselaer Polytechnic Institute

54. Michael Lyons, “Experimental Characterization of Concrete”. Ind. Study, Spring 2011.
53. Alec Rudd, “Experimental Characterization of Concrete”. Ind. Study, Spring 2011.
52. Heather McKown, “Experimental Characterization of Concrete”. Ind. Study, Spring 2011.
51. Petro Tzambourakis, “Experimental Characterization of Concrete”. Ind. Study, Spring 2011.
50. Diana Mazzola, “Fiber reinforced concrete and ASCE concrete canoe competition”. Ind. Study, Fall 2010.
49. Kelly Meenaghan, “Fiber reinforced concrete and ASCE concrete canoe competition”. Ind. Study, Fall 2010.
48. Matthew Chmura, “Fiber reinforced concrete and ASCE concrete canoe competition”. Ind. Study, Fall 2010.
47. Robert Vida, “Fiber reinforced concrete and ASCE concrete canoe competition”. Ind. Study, Fall 2010.
46. Garth Scannell, “Fiber reinforced concrete and ASCE concrete canoe competition”. Ind. Study, Fall 2010.
45. John Scarano, “Fiber reinforced concrete and ASCE concrete canoe competition”. Ind. Study, Fall 2010.
44. Stephan Tchorbajian, “Steel bridge design and ASCE steel bridge competition”. Ind. Study, Fall 2010.
43. Craig Buechele, “Steel bridge design and ASCE steel bridge competition”. Ind. Study, Fall 2010.
42. Jameson Allen, “Steel bridge design and ASCE steel bridge competition”. Ind. Study, Fall 2010.
41. Erika Hango, “Steel bridge design and ASCE steel bridge competition”. Ind. Study, Fall 2010.
40. Paul Tegnazian, “Steel bridge design and ASCE steel bridge competition”. Ind. Study, Fall 2010.
39. Andrew Yeskoo, “Steel bridge design and ASCE steel bridge competition”. Ind. Study, Fall 2010.
38. Brian Watts, “Steel bridge design and ASCE steel bridge competition”. Ind. Study, Fall 2010.
37. Adam Devito, “Tensile Fracture of Concrete”. Ind. Study, Fall 2010.
36. Kelsey Korona, “Tensile Fracture of Concrete”. Ind. Study, Fall 2010.
35. Peter Crocitto, “Tensile Fracture of Concrete”. Ind. Study, Fall 2010.
34. Michael Lyons, “Tensile Fracture of Concrete”. Ind. Study, Fall 2010.

4. Daniel Horvath, "Concrete literature review". Ind. Study, Spring 2008.
3. Eric Dhal, "Test program for determining mechanical properties of concrete". Ind. Study, Spring 2008.
2. Eric Dhal, "Experimental investigation of concrete behavior". Ind. Study, Spring 2008.
1. Angie Urena, "Development of a database for experimental data of concrete". Ind. Study, Summer 2007.

:: SERVICE AND LEADERSHIP ::

Membership in Professional Societies

- American Society of Civil Engineering (ASCE), Member, August 2006 – Present.
- American Concrete Institute (ACI), Member, August 2005 – Present.
- International Association of Protective Structures (IAPS), September 2011 – 2014.
- RILEM, International Union of Laboratories and Experts in Construction Materials, Systems and Structures, Member, May 2010 – May 2012.
- United States Association for Computational Mechanics (USACM), Member, August 2009 – August 2010.
- The Milan Order of Engineers, Member, 1999 – 2006.

Service in Technical Committees and Technical Boards – Associations

- ASCE Engineering Mechanics Institute (EMI), Board of Governors, Member, October 2017 - Present.
- IA-ConCreep, Board of Directors, President, October 2015 - Present.
- IA-FraMCoS, Board of Directors, Treasurer, March 2013 – Present.
- ACI 209, Creep and Shrinkage in Concrete, Member since May 2008. Chair, April 2016 – Present.
- ACI 446 Fracture Mechanics, Member since September 2005. Chair, March 2010 – March 2016.
- ACI Committee on Awards for Papers (CAP) – Subcommittee SC2, Wason Medal for Materials Research, Member, February 2013 – Present.
- ACI 447 Finite Element Analysis of Reinforced Concrete Structures (Joint ACI-ASCE), Member since April 2008.
- ASCE EMI – Computational Mechanics, Member, April 2008 – Present.
- ASCE EMI – Modeling Inelasticity and Multi-Scale Behavior, Member, May 2008 – Present.
- IA-ConCreep, Board of Directors, Secretary, October 2008 - September 2012.

Service in Technical Committees and Technical Boards – Journals

- Associate Editor for the J. of Nanomechanics and Micromechanics (JNM) of ASCE. September 2014 – September 2017.
- Editorial Advisor Board of the International Journal of Damage Mechanics. February 2014 – Present.
- Editorial Board of the Int. J. for Numerical and Analytical Methods in Geomechanics. October 2013 – Present.

- Associate Editor for the Engineering Mechanics Journal (JEM) of the ASCE. December 2012 – Present.

Chairmanship at Conferences and Workshops

- EMI 2013, ASCE Engineering Mechanics Institute Conference, 4-7 August, 2013, Evanston (IL), USA. Conference Chair.
- SES 2012, Society of Engineering Science, 49th Annual Technical Meeting, 10-12 Oct, 2012, Atlanta (GA), USA. “Symposium IV.15 From Nanopores to Large Structures: A Life Time Journey Across Length Scales”. In honor of Prof. Z.P. Bažant. Organizer and Session Chairman.
- EMI 2010, ASCE Engineering Mechanics Institute Conference, 8-11 August, 2010, Los Angeles (CA), USA. Mini-symposium on “Constitutive and Fracturing Behavior of Quasi-Brittle Materials Computation and Experiments” in honor of Prof. L. Cedolin. Organizer and Session Chairman.
- 7th International Conference on Fracture Mechanics of Concrete and Concrete Structures (FracMCoS 7), 23-28 May, 2010, Jeju, South Korea. Two sessions on “Discrete Modeling of Concrete Materials and Structures”, Session Organizer and Session Chairman.
- 10th U.S. National Congress for Computational Mechanics, Mini-symposium on Structural Response Under Extreme Loads: Modeling, Simulation, and Experiments, Columbus (OH), July 16-19, 2009, Session Organizer and Session Chairman.
- The 2009 Joint ASCE-ASME-SES Conference on Mechanics and Materials, Symposium in Honor of Z. P. Bažant, Blacksburg (VA), June 24-27, 2009, Session Chairman.
- Mini-symposium on Failure Simulation by Discrete Models, CFRAC 2007, International Conference on Computational Fracture and Failure of Materials and Structures, Nantes, France, June 11 – 13, 2007, Session Chairman.

Service @ Northwestern University

- Area Coordinator for the Mechanics, Materials, and Structures (MMS) program. January 2015 – Present.
- CEE Graduate committee, CEE Department, February 2014 – Present.
- CEE Space Committee, CEE Department, February 2014 - August 2014.
- Faculty Advisory Committee, CEE Department, September 2013 – August 2014.
- Coordinator for the Seminar Series on “Sustainable Engineering of Geological and Infrastructure Materials (SEGIM)”, September 2014 – May 2018.
- Coordinator for the Seminar Series on “Structural Engineering and Infrastructure Materials (SEIM): Design, Mechanics, and History”. August 2012 – August 2014.
- Area Coordinator for the Structural Engineering and Infrastructure Materials (SEIM) program. August 2011 – December 2014.
- ME Computational Mechanics Search Committee, Member, September 2013 – May 2014.

Service @ Rensselaer Polytechnic Institute

- Geotechnical/Environmental Engineering Search Committee, Member, January 11 – May 11.
- CEE Graduate Committee, Member, September 2008 – May 2011.
- 175th Anniversary Celebration Committee, Member, September 2009 – May 2010.
- Faculty Peer Support Committee, Member, Sep.ember 2008 – Sep. 2009.
- Faculty Mentorship Committee, Chair, January 2008 – September 2008.
- Departmental Undergraduate Committee, Member, January 2008 – Sept. 2008.
- Faculty advisor for the Chi-Epsilon Student Chapter, May 2010 – May 2011.
- Advisor for the RPI Concrete Canoe Team, Fall 2010 – Spring 2011.
- Advisor for the RPI Steel Bridge Team, Fall 2006 – Spring 2011.

:: PROFESSIONAL AND PUBLIC LECTURES ::

Plenary and Keynote Lectures

10. “3DPrinting in Costruction: Don’t Forget About Materials”. Plenary lecture at the YPO workshop on Revolutionizing Construction with 3D Printing. Philadelphia, PA. May 13-14 2019.
9. “Computational Modeling and Characterization of Infrastructure Materials for Terrestrial and Extraterrestrial Constructions.” Plenary lecture at the SynerCrete 2018 Conference. Funchal, Madeira Island, Portugal. October 24-26, 2018.
8. “The Lattice Discrete Particle Model (LDPM) for Fracture Dynamics and Rate Effect in Concrete: Theory, Calibration and Applications” Plenary lecture at the 22th DYMAT Technical Meeting. Grenoble, France. October 19-21, 2016.

7. "A Computational Framework for the Simulation of Aging and Deterioration of Concrete Structures" Plenary Lecture at the 57th Brazilian Conference of Concrete. Bonito (MS), Brazil. October 27-30, 2015.
6. "Aging and deterioration of concrete structures. Learning from the past, assessing the present, and predicting the future: science or magic?" Plenary Lecture at the 10th International Conference on Mechanics and Physics of Creep, Shrinkage, and Durability of Concrete and Concrete Structures (CONCREEP-10). Vienna, Austria. September 21-23, 2015.
5. "Mesoscale Simulation of Alkali-Silica Reaction (ASR) Deterioration of Concrete and Interpretation of Nonlinear Ultrasound Measurements" Keynote Lecture at NEA-CSNI-IAGE CAPS Workshop: Assessment of Nuclear Structures Subject to Concrete Degradation (ASCET). Gaithersburg, MD, June 30, 2015.
4. "Multiscale computational models for the simulation of concrete materials and structures" Plenary Lecture at EURO-C 2014, 24-27 March, 2014. St. Anton, Austria.
3. "High-order Microplane Theory for Elasticity and Softening of Quasi-Brittle Materials" Keynote Lecture at The Third International Conference on Computational Modeling of Fracture and Failure of Materials and Structures (C-FRAC 2013), Prague, Czech Republic, 4-7 June 2013.
2. "Simulation of Fiber-Reinforced Ultra-High Performance Concrete Under Penetration" Keynote Lecture at the PREVI Workshop, Les Houches, France, 1-4 April, 2013.
1. "Generalized Mathematical Homogenization of The Lattice Discrete Particle Model". Keynote Lecture at the 8th International Conference on Fracture Mechanics of Concrete and Concrete Structures (FracMCoS-8), 10-14 March, 2013. Toledo, Spain.

Selected Invited Lectures (15 out of 50+)

15. "Discrete Modeling of Mesoscale Poromechanics: Formulation and Numerical Examples with Application to Shale Simulation.", Politecnico di Milano, Milan, Italy. June 6, 2017.
14. "Multiscale-Multiphysics Computational Models for Quasi-Brittle Materials: from Cementitious and Carbon Composites to Rock and martian Concrete.", Laval University, Quebec, Canada. May 10, 2017.
13. "Aging and deterioration of infrastructure materials. Learning from the past, assessing the present, and predicting the future: science or magic?" Falling Apart - America's Neglected Infrastructure, Alumni Association, Northwestern University, Evanston (IL), November 5, 2015.
12. "Multiscale Modeling of the Mechanical Behavior of Black Shale", Grand Challenges in Geological Fluid Mechanics, Santa Fe (NM), September 4, 2015.
11. "A multiscale computational framework for the Alkali Silica Reaction (ASR) deterioration of concrete structures", NIST, Gaithersburg (MD), April 7, 2015
10. "Aging and deterioration of concrete structures. Learning from the past, assessing the present, and predicting the future", University of Illinois at Urbana-Champaign, Urbana-Champaign (IL), March 16, 2014.
9. "The Lattice Discrete Particle Model (LDPM): From Concrete Micro-Structure to Structural Modeling of High Impulsive Loading Events", Tongji University (Shanghai, China), Nanjing University of Science and Technology (Nanjing, China), Tsinghua University and Beihang University (Beijing, China), October 2014.
8. "Multiscale Computational Models for the Simulation of Concrete Materials and Structures" Johns Hopkins University, Baltimore (VA), April 2014 also presented at Monash University and Swinburne University (Melbourne, Australia); University of Sydney and New South Wales (Sydney, Australia), May 2014.
7. "A multiscale computational framework for the analysis of alkali-silica reaction (ASR) deterioration of concrete structures" in Lecture Series 2013-2014 on Life-Cycle and Sustainability of Civil Infrastructure and Protection Systems. BOKU, Vienna (Austria), Mar 2014.
6. "The Lattice Discrete Particle Model (LDPM): From Concrete Micro-Structure to Structural Modeling – A Journey Across Length Scales." Hilti Corporation, Schaan, Lichtenstein, June 3 2013.
5. "Multiscale Modeling of Concrete (and Other Geomaterials): Are We There Yet?". Sandia Nat Labs, Albuquerque (NM), Sep. 5 2012.
4. "Multiscale And Multiphysics behavior of Concrete: Predicting Infrastructure Future?" US Bureau of Reclamation, Denver (CO), July 20, 2012.

3. “Modeling the Multiscale and Multiphysics Behavior of Concrete: From Academia to Practice”, CTL Group, Skokie (IL), April 2012.
2. “Discrete Modeling of Fiber Reinforced Concrete: Current Status and Future Outlook”, Structural Mechanics Seminar, Departments of Civil and Mechanical Engineering, University of Maine, USA, Feb 2011.
1. “Lattice Discrete Particle Model for Fiber Reinforced Concrete (LDPM-F)”, Politecnico di Milano, Milan, Italy, Dec. 2009.)

Selected Presentations at National and International Conferences, Symposia, and Workshops (15 out of 50⁺)

15. “Effect of alkali silica reaction on concrete mechanical properties evolution: experiments and numerical modeling”, EMI 2018 Conference, Cambridge, MS (USA). May 30, 2018.
14. “A multiscale framework for the prediction of concrete self-desiccation”, Bad Hofgastein, Austria. Feb 26, 2018.
13. “Simulation of coupled creep, drying, shrinkage and aging of concrete: model complexity and uniqueness of parameter identification”, ACI Fall Convention 2017, Anaheim (CA), October 17, 2017.
12. “Fracture and Damage of Textile Composites”, 3rd International Conference on Mechanics of Composites (MECHCOMP3), Bologna, Italy. 4-7 July, 2017.
11. “Effect of Alkali Silica reaction on Aging Mortar Bars.”, EMI International Conference 2017, Rio De Janeiro, Brazil. march 22, 2017.
10. “Isogeometric Implementation of The High-Order Microplane Model For Softening And Localization”, 9th International Conference on Fracture Mechanics of Concrete and Concrete Structures (FraMCoS-9). Berkeley, CA (USA). May 30, 2016.
9. “Multiscale Modeling of Alkali Silica Reaction Deterioration of Concrete Structures”, 1st Zdeněk P. Bažant (ZPB) FraMCoS Workshop. Berkeley, CA (USA). May 29, 2016.
8. “Isogeometric Implementation of the High-order Microplane Model for Softening and Localization”, C-FRAC 2015 Conference, Cachan (France), 3-5 June 2015.
7. “Simulating acoustic nonlinearity change in accelerated mortar bar tests: a discrete mesoscale approach”. IALCEE Conference 2014, Tokyo, Japan, 16-19 November, 2014.
6. “Multiscale modeling of alkali-silica reaction degradation of concrete” RILEM CONMOD 2014, Beijing, China, Oct. 2014.
5. “Multiscale Modeling of Projectile Penetration Into Concrete Targets”, 14th International Symposium on Interaction of Munitions with Structures (ISIEMS). Seattle, Washington (USA), Sep. 2011.
4. “Myth and Reality of Multiscale Modeling of Concrete and other Quasi-Brittle Materials”, 14th International Symposium on Interaction of Munitions with Structures (ISIEMS). Seattle, Washington (USA), Sep. 2011.
3. “Discontinuous Cell Method (DCM) for Cohesive Fracture Propagation”. 7th International Conference on Fracture Mechanics of Concrete and Concrete Structures (FraMCoS 7), Jeju, South Korea, May 2010.
2. “Meso-scale Modeling of Blast and Penetration Induced Fragmentation”. Particles 2009 International Conference on Particle-Based Methods. Barcelona, Spain, Nov. 2009.
1. “Microplane Model for Composite Laminates”, International Conference on Modelling of Heterogeneous Materials with Applications in Construction and Biomedical Engineering, Prague, Czech Republic, June 2007.
