

GLOBAL ENGINEERING TREK TO CHILE 2023

- Gain exposure to minerals mining at the center of energy storage technologies, the environmental and social effects of mining, and research to develop improved mining and recycling technologies that can reduce them.
- Spend time with fellow Northwestern students and faculty touring companies, facilities, and research institutions in one of the two largest lithium-producing countries on Earth.
- Meet and engage with student peers at Pontificia Universidad Católica de Chile
- Need-based financial aid is available

Travel Dates	Sept 2023
Eligibility	Freshmen, Sophomores,
Application Deadline	March 15, 2023

OPEN TO ALL MAJORS

HIGHLY SUBSIDIZED
